DIPLOMA LEVEL

SELANGOR HUMAN RESOURCE DEVELOPMENT CENTRE

SEMICONDUCTOR CHIP TESTING (SCT)

OBJECTIVES PROGRAM

Selangor Human Resource Development Centre (SHRDC) is offering a 3 + 3 months government funded training program in Semiconductor Chip Testing (SCT) for diploma level fresh graduate

Participants will gain required skills towards being a more competent Semiconductor Chip Tester technician that include a maintenance certification training module from Teradyne, a leading supplier of automation equipment for test and industrial applications

Successful candidates shall complete:-

- Up to 3 months intensive essential skills and technical training at SHRDC Shah Alam
- Minimum 3 months internship/on-the-job training at related Semiconductor Manufacturing Companies
(arranged by SHRDC)

Upon completion, the employer could hire the participants as Semiconductor Chip Tester technicians based on performance during internship

REQUIREMENTS

- Malaysian citizen
- Age: 21 - 30 is preferred
- Candidate must possess at least Diploma or equivalent qualifications in Engineering (Electrical/Electronic, Mechatronic, Electro-Mechanical or related discipline)
- Required language(s): Bahasa Malaysia, English
- No work experience required
- Excellent personality and good communication skill
- Willing to work on Normal hour/shift

CORE UNITS MODULES

- Teradyne certification in J750 Maintenance
 - Introduction to testing using ATE
 - J750 Test System Maintenance
 - Understanding Problem Solving Process and relating it to Semiconductor Test environment
- Introduction to Semiconductor Assembly & Test
- Introduction to Printed Circuit Board and Surface Mount Technology

Interested candidates please contact Pn. Juraina or Pn. Hasnah at **03-55133560** for more details.
